150TH ANNIVERSARY
OF NIESSING
SINCE 1873

SUSTAINABLE *Dedication*

DESIGN OF A NEW ERA

Since our founding in 1873 in the picturesque Münsterland region, we have relied on the traditional art of goldsmithing. Every piece of jewelry that leaves our manufactory is the result of decades of experience and dedication. Our deep roots not only give us strength; they also provide consistency in an ever-changing world.

We are proud to be RJC certified, which highlights our commitment to ethical and socially responsible jewelry making. Sustainability is our top priority and we are committed to a circular economy in the handling of precious metals.

BRILLIANT Statement

It is a bold statement for the hand and a shape that simply follows your emotions: »form follows emotion«. Are you ready for the original of a new era?

EXCLUSIVE ANNIVERSARY YEAR ENGRAVING

An exclusive engraving with a fine diamond set in the band makes the Niessing Spannring® Era even more precious on the occasion of the Niessing anniversary. The engraving is strictly limited to the year 2023.

NIESSING SPANNRING® ERA

ARE YOU READY FOR THE ORIGINAL OF A NEW ERA?

The Niessing Spannring® Era reveals fascinating new facets of a great design icon. At the same time, it pays tribute to Bauhaus and to the original round shape of the Niessing Spannring. A delicate, endless band of gold or platinum encircles the finger in a sweeping, free, and graceful manner. It almost appears as if two rings are holding the diamond. Yet it is only one: Curving into two fine arches in an entirely organic manner, it gently and securely holds the precious diamond.

ENDLESS MAGIC

EXCLUSIVE DESIGNS WITH RADIANT LINES OF
LIGHT**

As a Highlights ring and pendant, the Niessing Spannring® Era becomes even more exclusive and precious: the fine, curved band of gold or platinum is completely pavé-set with fine diamonds, highlighting the beauty of the large diamonds in a unique way. The precious metal recedes into the background: it almost seems as if the endless, intertwined shape is comprised entirely of radiant lines of light.

SPANNRING® PENDANT ERA HIGHLIGHTS

SWEEPING, FREE AND GRACEFUL

A delicate, endless band of gold or platinum encircles two precious diamonds. Its fascinating design with fine, curved arches eliminates the need for an eyelet in the new Niessing Spannring® Era pendant: the Niessing Coil or Niessing Chain are simply pulled through it – one of the sparkling diamonds always faces forward. The pendant perfectly complements the bold statement Spannring® Era.

**ICONIC NIESING COLOR FOR
THE 150TH ANNIVERSARY**

On the occasion of the 150th anniversary of the manufactory, the Niessing designers and goldsmiths undertook a special challenge: inspired by the creative spirit of the Bauhaus philosophy of leaving old paths behind and discovering the new. They were driven by the desire to translate the iconic Niessing Color Grenadine – the color for brand lettering and »Heart and Arrow« – into precious metal.

Heart OF PLATINUM

The new Niessing Supla Grenadine is a rosé-colored, warmly shimmering gold. Its portion of precious platinum gives it a fascinatingly luminous luster – as if bathed in the cool, clear light of the moon. The historic Niessing anniversary color translates the iconic Niessing Grenadine from the brand lettering and »Heart and Arrow« into precious metal. Blending platinum and gold to create this incomparable color tone is a stroke of technical genius.

THE MAGICAL KISS OF *Color*

SET COLORFUL ACCENTS

Setario's name, derived from the words »set« and »variation,« says it all: A variety of ring forms with soft curves has been crafted in gold with various color tones of enamel – with or without diamonds. Ever since, Niessing Setario has been synonymous with collectible rings that can be combined over and over again for colorful creations. They also set lovely accents, whether worn alone or combined with one another.

ANNUAL RING 2023

GRENADINE MEETS SPARKLING DIAMONDS!

The Setario Edition ring is here for the 150th anniversary of the manufactory and only available in 2023 as a Setario Edition ring in Grenadine.

Grenadine is the iconic Niessing Color. Since time immemorial, our logo, the flaming »Heart and Arrow«, has appeared in this sensuously radiant hue.

The exclusive ring combines gold in Supla Grenadine with luminous Grenadine enamel and sparkling diamonds: It radiates straight to the heart.

SPARKLING DIAMONDS ENHANCE THE IRIDESCENT EFFECT

The lustrous surface of the pendants reflects the light and captures colors from its surroundings. The gold, which is heavy and compact by nature, appears to virtually dissolve, shimmering like a gossamer soap bubble interacting with the ambient light. This effect is further enhanced by radiant diamonds!

TOPIA VISION

HIGHLIGHTS

FEEL THE VISION

GENTLE ILLUSION

REAL LANDSCAPES BECOME DREAM WORLDS

Topia Vision expands the view from real landscapes to the imaginary, the surreal: gossamer soap bubbles, radiant northern lights, mysterious misty clouds, glittering reflections on the sea – such phenomena give free rein to the imagination. Graphic patterns and abstract structures such as branching sand tracks in a desert or the iridescent play of light in illuminated metropolitan cities also inspire the dream worlds of Topia Vision.

DELICATE STRUCTURES

GOLD AS IRIDESCENT AS A GOSSAMER SOAP BUBBLE

The expressive outer contours provide the jewelry with fascinating dynamics; the pieces are incredibly fine, full of lightness and transparency. The bracelet and rings playfully embrace the arm and fingers gently. The lustrous surface reflects the light and captures colors from its surroundings. The gold, which is heavy and compact by nature, appears to virtually dissolve, shimmering like a gossamer soap bubble interacting with the ambient light.

Niessing Topia Vision translates visionary design into precious jewelry and makes dream worlds come true: Experience the power of visions!

Collecting JOY

CLICK, CREATE – COLLECT!

The Niessing Colette C collection with its fine coils and fascinating charms to collect meets the historic Niessing Color Supla Grenadine. The new Colette C Satellite Hold pendant sends fine diamonds into their orbit.

COLETTE C

NIESSING COLETTE C RING

Delicate, soft and smooth: For the Niessing Colette C Ring, the Niessing Coil winds around the finger up to five times, with two gleaming spheres forming the closure. If you wish, a fine, set diamond adds that extra sparkle to every day. Its position in the ring can be changed to suit your mood: »Today, the focus is on me – tomorrow, I'll shine for the world.« Simply beautiful!

CREATE MEMORIES!

Shining spheres, sparkling diamond pendants, precious roundels for your personal engraving, and exquisite Niessing design icons in miniature make the Niessing Colette C bracelet and necklace symbols of your personal history. Capture unforgettable moments forever: Full of spirit and charm.

NEW: NISSING COLETTE C SATELLITE HOLD

A PENDANT SENDS DIAMONDS INTO THEIR ORBIT

Satellite Hold is a brand-new addition to the Colette C charm collection. As with the Niessing ring classic Satellite, the delicate pendant sends sparkling diamonds into their orbit. Nine fine diamonds are embedded in a roundel with a gently rounded tonneau shape. Colette C Satellite Hold has a stopper function: if you wish to create individual images with your collected pendants, you can use Satellite Hold to fix them at a specific position in the jewelry.
